Quick Start Guide

1. Along with your copy of The Real Piano you need to download Native Instruments' Free Kontakt Player and install it on your computer. Go to this link if you need the free Kontakt Player: https://www.native-instruments.com/en/products/komplete/samplers/kontakt-6-player

2. Next download Pulse from www.pulsedownloader.com (or if you already have Pulse, open the app on your computer).

4. Click "Add a Product" in the upper right Pulse, and enter the redemption key you received in your delivery email. Check "Install Now" and click "Redeem."

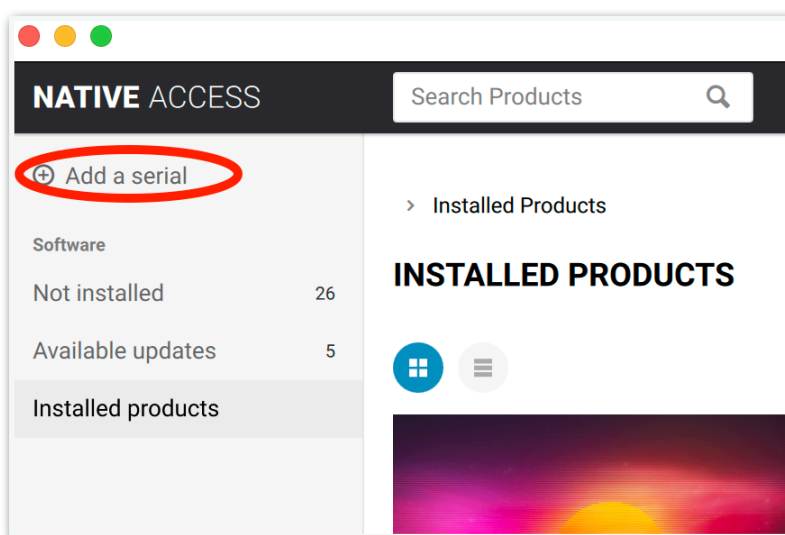

5. Choose the location you'd like to install the library to. (Please ensure you have enough space on your hard drive to extract and install the product).

6. Open Kontakt, Select the "Libraries" tab. Select "Manage Libraries." In the next window click "Launch Native Access."

7. In Native Access, in the upper-left corner, click "Add A Serial"
